

## ELECTROFLEX & ELECTROPLUS MATERIAL

DK's flexible material has been developed by our engineers to combine the long life and aggressive cutting action of diamonds with a backing material which has strength and flexibility. This enables diamond tools of various shapes to quickly and economically grind and polish a wide range of hard materials such as natural and synthetic stones, glass, ceramics and hard metals.

*Electroplus* is an alternative to the *Electroflex* pattern and works particularly well when used as discs and belts for the rapid stock removal applications.

**ELECTROFLEX**

**ELECTROPLUS**

## MANUFACTURING PROCESS

The manufacturing process produces diamond islands of identical size and shape with a regular spacing. This has been designed to allow slurry to be freely washed away with the lubricant (water) without any clogging. The overall pattern produced gives the optimum rapid stock removal with the ability to achieve the desired honed or highly polished finish.

No minimum order value.

**flexible material**

### ELECTROFLEX/ELECTROPLUS - METAL (M)

Selected high quality diamonds are electroplated with a nickel matrix through a special flexible stainless steel mesh, or a very strong flexible backing cloth, which achieves a very strong fast grinding and finishing product.

### ELECTROFLEX/ELECTROPLUS - RESIN (R)

The finer resin polishing grades are bonded with a resin matrix on to a very strong flexible backing cloth for a smooth grinding action to achieve an excellent polished finish.

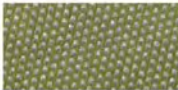

### WET WORKING

*Electroflex and Electroplus* products have been designed to be used wet to achieve the maximum performance, finish and life.

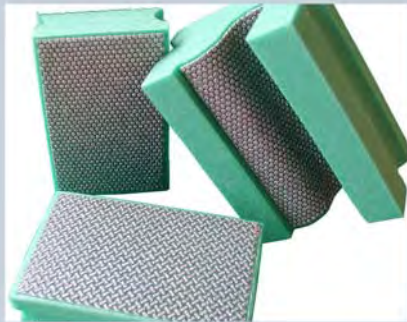

### DRY WORKING

Some *Electroflex and Electroplus* products are available for dry working where appropriate.

## ELECTROFLEX AND ELECTROPLUS HAND PADS

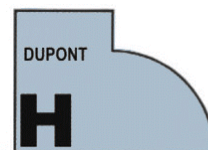

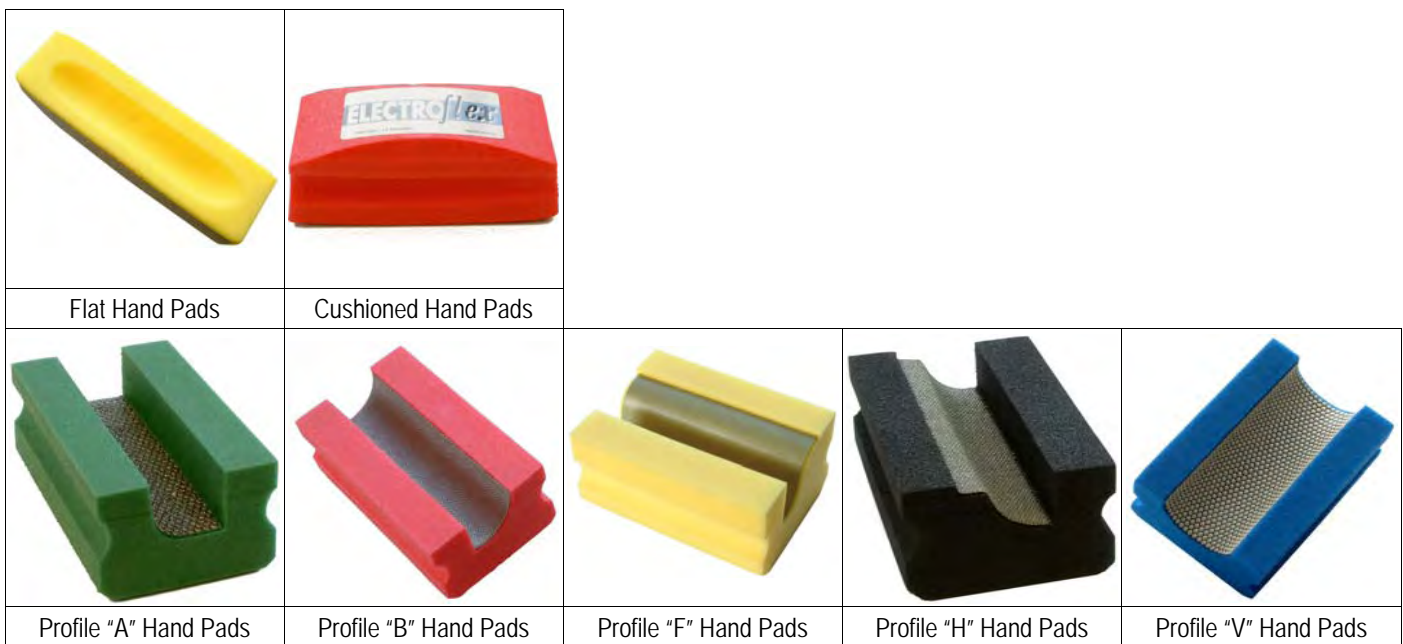

For wet grinding and polishing the edges and surfaces of a wide range of materials such as granite, marble, engineered stones, glass, ceramics and hard metals.

All hand pads have colour coded foam backing for easy grade identification and are available in the following options:-

<b>Hand Pads — Standard</b>	75 x 75mm, 90 x 55mm and 100 x 55mm	
<b>Electroflex</b>	Metal Grades	60 - 1800 grit - Resin Grades 800 - 12000 grit
<b>Electroplus</b>	Metal Grades	60 - 800 grit - Resin Grades 800 - 12000 grit
<b>Hand Pads — Profiled</b>	A20, A30, A40, B20, B30, F20, F30, F40, H20, H30 V20, V30 and V40	
<b>Electroflex</b>	Metal Grades	60 - 1800 grit - Resin Grades 800 - 12000 grit
<b>Electroplus</b>	Metal Grades	60 - 800 grit - Resin Grades 800 - 12000 grit

**Recommended sequence for:**

- Stone — Green (M), Black (M), Red(M), Yellow(M), White (R), Blue (R) & Orange (R)
- Glass — Green (M), Black (M), Red (M) & Yellow (M)

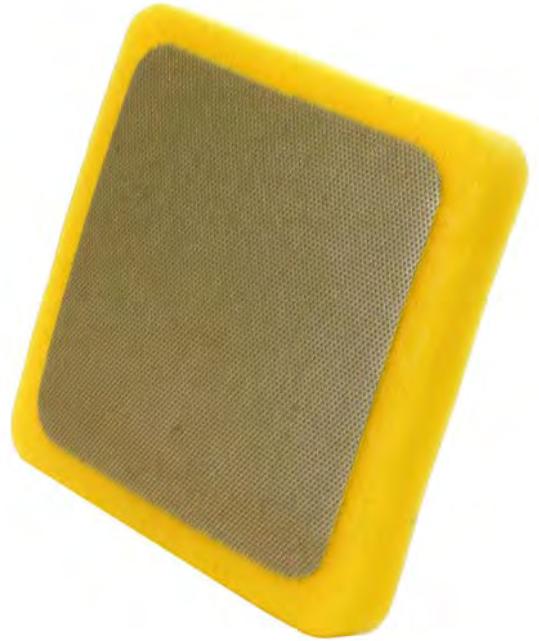

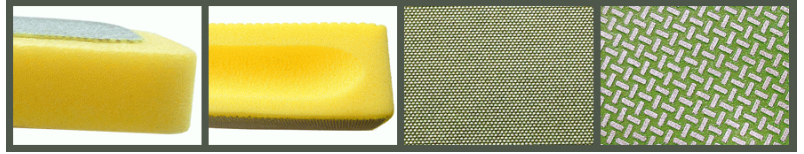

**A large range of stock items available for immediately delivery.**

## FLAT

*Economy hand pads for wet grinding and polishing the edges of natural and synthetic stones, glass, ceramics and hard metals. Colour coded foam backing for easy grade identification.*

**OPTIONS:** Size — 75 x 75mm and 90 x 55mm  
 Metal Grades *Electroflex* — 60-1800 grit  
*Electroplus* — 60-800 grit  
 Resin Grades — 800-1200 grit

## DISCS

**Electroflex and Electroplus** discs are suitable for wet grinding and polishing all types of hard materials including granite, marble, terrazzo, engineered stone, glass, ceramics and hard metals. All sizes and grades available, with various fittings for hand and stationary machines.

**OPTIONS:**

**Electroflex** — Metal Grades up to 600mm diameter without join (except 60 grit)  
 Resin Grades up to 300mm diameter without join

**Electroplus**— Metal Grades up to 300mm diameter without join  
 Resin Grades up to 300mm diameter without join

**Backings** — QRS (Velcro™), Self-Adhesive (S/A), Unbacked (Canvas), Magnetic, M14, D-Loc, Snail-Lock and Plastazote (Foam Rubber)

**Metal Grades**     *Electroflex*            — 60-1800 grit  
                               *Electroplus*            — 60-800 grit  
**Resin Grades**                                — 800-1200 grit

**Recommended sequence for:**

Stone — Green (M), Black (M), Red (M), Yellow (M), White (R), Blue (R) & Orange (R)  
 Glass — Green (M), Black (M), Red (M) & Yellow (M)

**NOTE:** Dry discs available on request.

## SHEETS

Flexible material can be supplied in sheets of various sizes and backings, which can be easily cut with scissors to make customised tooling.

### OPTIONS:

Metal Grades    Electroflex    — 60-1800 grit  
                         Electroplus    — 60-800 grit  
Sheet Dimensions 850 x 290mm

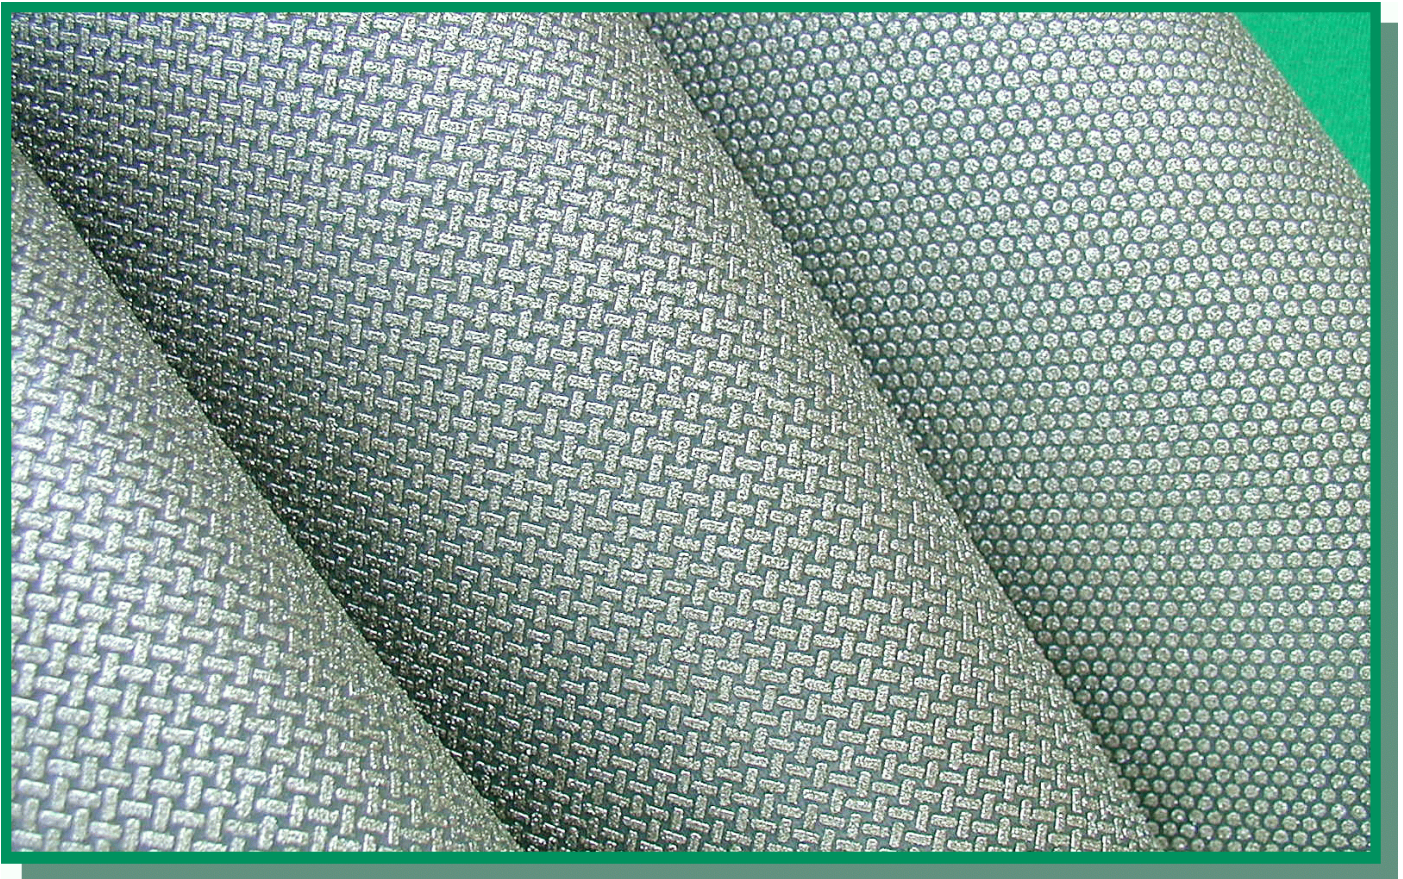

Resin Grades 800 - 12000  
Sheet Dimensions 650 x 290mm

### TYPES OF BACKINGS —

Unbacked (Canvas)  
QRS (Quick Release System - Velcro™)  
Self-Adhesive (S/A)  
Plastazote (Foam Rubber)

### Recommended sequence for:

Stone — Green (M), Black (M), Red (M), Yellow (M), White (R), Blue (R) & Orange (R)  
Glass — Green (M), Black (M), Red (M) & Yellow (M)

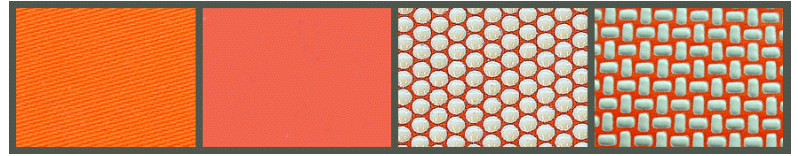

To order fax us on +44 (0)1580 892724, call us on +44 (0)1580 891662 or e-mail us on [sales@dk-holdings.co.uk](mailto:sales@dk-holdings.co.uk)

## SHEETS

Flexible diamond sheets for hand polishing marble, granite, engineered stone, glass, ceramics and hard metals. Colour coded for easy grade identification.

**NOTE:**

Others sizes and backings available on request.

## ELECTROFLEX AND ELECTROPLUS BELTS

DK's belts are being used extensively in wet grinding and polishing applications throughout the Aerospace, Ceramics, Glass, Paper and Stone industries.

Advantages are consistent finish, increased productivity and reductions in downtime and abrasive costs.

**Recommended sequence for:**

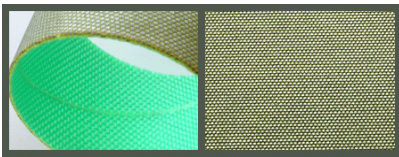

Stone — Green (M), Black (M), Red (M), Yellow (M), White (R), Blue (R) & Orange (R)

Glass — Green (M), Black (M), Red (M) & Yellow (M)

**A large range of stock items available for immediately delivery.**
